***RE: Meeting with Selected Property Owners - January 25, 2005
McCoy Field – New Keith Middle School Project***

Dear Sir or Madam,

Over the past several weeks, the City's environmental consultant, Beta Group, Inc. collected soil samples within City-owned property immediately adjacent to your property and identified the presence of contaminated fill from historic site activities.

The City has gathered preliminary environmental information and would like to present this information to you. We invite you to attend an informational meeting at the Keith Junior High School library at 7:00 p.m. on Tuesday, January 25, 2005. At this meeting, our Environmental Consultant will present their preliminary findings. We will also present our proposed program to collect additional subsurface soil samples so that decisions can be made on appropriate response actions. While this program is in initial stages, we know that some soil samples will need to be collected from residential properties. To access private property, we will need an access agreement with each property owner. Draft versions of the agreements will be provided at the meeting for discussion. It is our desire to enter into final access agreements not later than February 18, 2005.

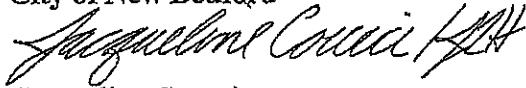

January 14, 2005

Page 2

We hope to see you on the 25th. Please contact Scott Alfonse, Director of the City's Environmental Stewardship Department at (508) 979-1487 if you cannot attend the meeting or if you have any questions regarding this work.

Very truly yours,

City of New Bedford
