Green Animal Topiary Garden's

Is the oldest and most northern topiary garden in the United States.

There are more than 80 pieces of topiary throughout the gardens, including animals and birds, geometric figures and ornamental designs, sculpted from California privet, yew, and English box-wood. Today, Green Animals remains as a rare example of a beautiful estate combining formal topiaries, vegetable and herb gardens, orchards and a Victorian house overlooking Narragansett Bay.
