

# Hampton Beach Sand Sculptors Competition

Hampton Beach, NH

The Master Sculptors who take part in this event come from all over North America.

This year's competitors hailed from Florida, Massachusetts, New York, Ontario, Quebec, Texas, and Ohio. Many of these competitors have been competing for years. 250 tons of imported sand is dropped on Hampton Beach for this event.

For creating their sculptures, no molds of any kind are allowed, however they can use wooden or plastic forms filled with sand and water to help gain the desired height needed for their creations. Platforms can be used to carve from the top down, and then the platforms are removed as they move down the sculpture. Each competitor has an allotted 21 hours over 3 days to complete their sculpture. These are amazing sand sculptures. It is absolutely fascinating to think each of these were actually carved solely of sand - the details are amazing.

(Lunch on Your Own)

There are many fantastic eateries all around the beach area

**Fri.**  
**June 17**      **\$35.00**
