

Altitude H2O - Seasonal Life Vest Rack at East Beach

Request to place 2 racks to provide organized storage/ drying for the life vests during the remaining summer weeks at East Beach.

Each life vest rack is constructed of (6) 4" X 6" X 8' pressure treated posts weighing 56 lbs each and (3) 4" X 6" X 12' pressure treated post weighing 84lb each with (5) 2" x 4" X 10' cross members weighing 21 lbs each. The structure is secured with timber locks and the total weight of each rack is approximately 693 lbs.

With a named storm or sustained winds of 45mph or greater, the racks will be removed and stored at a location off the beach.

Proposed location of life vest racks
