RE: **NORM NICHOLS / BARTLETT STREET**

We would like to explore accessing Norm's Acushnet upland from the north as shown on the attached plan. This will require shifting the existing detention basin (that was constructed in 2004) to the west. We have made sure it will have the same hydraulic capacity. We prefer to not file an entirely new Notice of Intent since Norm has already paid over \$3,00 in filing fees. We do think we should re-notify the abutters (there will be 5 additional abutters). We also feel there should be a new legal ad.

If you agree, we will provide you with revised forms, cover letter and Narrative. Please call to discuss.
