Re: Withdrawal of Special Project Designation Extension Request and
Request for Approval of Tier Classification Schedule
Parker Street Waste Site
Release Tracking Numbers 4-0015685 and 4-00022409

Dear Ms. Garcia-Serrano:

The City of New Bedford hereby withdraws its January 24, 2014 request to extend the Special Project Designation for the Parker Street Waste Site. The City intends to submit two Tier Classification submittals by April 25, 2014: one for Release Tracking Number 4-0015685 and one for 4-00022409 which is specific to the release beneath the mechanical room. The City requests that MassDEP approve this proposed submittal date. We believe that this approach will streamline the process of completing response actions for the sites and maximize efficiency relative to time and resources.

We appreciate MassDEP's guidance and look forward to continuing to work with you throughout this process. If you require clarification or additional information regarding this withdrawal, please do not hesitate to call me at 508-979-1487.

Sincerely,

Michele Paul, LSP
Director, New Bedford Department of Environmental Stewardship
