**RE: Request for Certificate of Compliance  
Underground Utility Installation  
John Vertente Boulevard  
New Bedford, Massachusetts**

[LEC File # UCS\14-350.01]

Dear Members of the Commission:

On behalf of the Applicant, Comcast Cable Communications, LEC Environmental Consultants, Inc., (LEC) is submitting a Request for Certificate of Compliance associated with the Order of Conditions (DEP File #SE 49-0710) issued by the Commission on November 19, 2014, permitting *the utility installation within the John Vertente Boulevard Right-Of-Way involving temporary disturbance within previously developed Buffer Zone to Bordering Vegetated Wetland and Riverfront Area.*

As confirmed in the field by LEC on August 23, 2015 and depicted on the *As-Built* plan, prepared by UC Synergetic, dated August 31, 2015, the project has been completed in substantial compliance with the OOC. The majority of the cable lines were installed within the grass shoulder, with some extending into the paved roadway (see attached Photographs). Temporarily disturbed areas have been backfilled with suitable fill, regraded to pre-construction conditions, and seeded as required.

Enclosed please find a check for Two Hundred Fifty Dollars (\$250.00) for the Request for Certificate of Compliance *Bylaw* fee for a partial new roadway.

Should you have any questions or require additional information in advance of the October 21, 2015 Public Hearing, please do not hesitate to contact me at 508-746-9491 or [mmanganello@lecenvironmental.com](mailto:mmanganello@lecenvironmental.com).

Sincerely,

**LEC Environmental Consultants, Inc.**
