**Subject:** Notice of Intent- West Rodney French Boat Ramp

Commission Members,

I'm writing this message in support of the proposed dredging at the boat ramp on West Rodney French Boulevard. Not only will dredging provide safe access for the public to use the ramp, but it will also reduce the risk of future groundings and resultant pollution.

Thank you for your consideration of this project.

Regards,

David T. Condon

1. **A Notice of Intent as filed by David Condon of the City of New Bedford and Douglas Cameron of the MA Dept of Fish & Game – Office of Fishing and Boating Access for property identified as the West Rodney French Boulevard Clark's Cove Public Access Facility (Map 7, Lot 5).** Applicant proposes to dredge approximately 85 cubic yards of accumulated sediment at the seaward edge of the boat ramp and use the sediment as beach nourishment if grain sizes are compatible. Representative is Michael Count of CLE Engineering.
