RE: 117 UNION STREET MULTI-USE FACILITY

Dear Planning Board members:

Enclosed are revised documents and plans that have been modified in response to the Planning staff report, input received from the Planning Board at the public hearing and subsequent conversations with Planning Staff. The documents now include the proposed trash room, bike storage room, one additional studio apartment and yard where the transformer and handicap space are to be located on the north end of 127-129 Union Street. That lot, which is a portion of Assessor’s Map 55, Lot 146, was not included in the previous application.

The enclosed revised rejection packet from the Department of Inspectional Services, the application, the application checklist, the narrative and plans have all been modified to include those revisions.

Sincerely,

PRIME ENGINEERING, INC.

RE: 117 UNION STREET

Dear Board Members,

On behalf of 117 Union Street LLC, we hereby submit the enclosed revised package for a Special Permit and Site Plan Review for a proposed commercial/residential building. The revision consists of adding 127-129 Union Street (Assessor’s Map 53, Lot 146) to the application. The submittal package consists of 16 copies of the following:

- This letter;
- The executed application forms;
- The application checklists;
- Plans (4 full size and 12 reduced size);
- The Impact Report which includes the estimated cost of site work and the Traffic Impact and Access Study;
- The Stormwater Report;
- The deeds (proof of ownership);
- The rejection package from the Building Department and
- Certified abutter’s list.

Additionally, we have included:

- A CD disk of the drawings in PDF format (CAD format will be submitted after all Planning input has been received);

A petition for a Special Permit is being submitted to the New Bedford Zoning Board of Appeals for several dimensional non-compliances.

It is proposed that the building construction will commence this year. The existing site consists of five separate attached one story buildings and a paved parking lot. A determination has been made that the plan as presented complies with ADA regulations.

Sincerely,

PRIME ENGINEERING, INC.

Summary of Existing Petitions

There are five existing one story brick buildings in poor repair with a small parking lot bordered by Union Street, North Second Street and Barker’s Lane. It is proposed to raze the buildings and construct a 5 story building with a lobby and commercial use on the first floor and 42 apartments on Floors 2 through 5. At the northwest corner, a one story building will be built with one additional studio apartment, a trash storage room and a bike storage room. The yard to the north will have a single handicap parking space, a transformer, gas meters, pedestrian walkways and landscaping. This requires Site Plan Review from the Planning Board. It is not proposed to provide any off street parking or loading other than a single handicap space. This requires a Special Permit from the Planning Board.

There are several requests for dimensional relief, including minimum lot size, rear setback, building coverage and required green space for which a Special Permit from the Zoning Board of Appeals is being sought.
