Site Plan Review Application Checklist

In order for the City of New Bedford Planning Board to accurately review your project in a timely manner, plan sets submitted with applications must be complete and thorough. A comprehensive understanding of this handout and submittal of all required documents and plans ensures an efficient review of your project.

Unless otherwise noted or determined by Planning Division Staff to not be required, the following information and drawings must be included in the submittal package for your application. For an application to be accepted, each and every item is required at the time of application submittal.

In certain instances, plans, or portions of plans, may be waived when not applicable for the review of a particular type of development, at the discretion of the City Planner. Requests for any such waiver(s) must be submitted, in writing, to Planning Division for consideration prior to application submittal.

All submitted materials must be legible, organized & bound (where appropriate) in a manner that allows for distribution of all proposal materials as 1 package. Please utilize double-sided printing for submitted reports, studies and statements when possible.

2. **Completed Site Plan Review Application Checklist** (1 original & 15 copies)

3. **Plans**
   - Four (4) stapled and folded sets of full-sized plans (24” x 36”) and Twelve (12) sets of reduced plans (11” x 17”) are required for all applications. Staff reserves the right to require additional copies.
   - One (1) electronic copy (PDF & CAD) of all proposed activity plans (See Section 10 of Checklist for Requirements)
   - All plans oriented so that north arrow points to top of sheet
   - Plans shall be drawn at a minimum scale of 1” = 40’ or less
   - All plans shall be stamped by Commonwealth of Massachusetts-registered Professional Engineer, Professional Land Surveyor, and/or Professional Landscape Architect, as appropriate
   - Plan sets shall be comprised of separate sheets as listed below unless otherwise approved by the City Planner
   - All plans shall have a title block comprised of the following: Project Title, Sheet Title, Sheet Number; Registrant Stamp (i.e. PE, PLS, LA); Registrant’s name and address; Street addresses of the project area parcels; Scale at which the plan is drawn; Plan Issue Date; and all plan revision dates (with corresponding revision descriptions).
3a. **Cover Sheet**, to include the following information:

- **Title Block**
  - Project name/title
  - Assessor's map and parcel number(s)
  - Registry Book and Page
  - Name and address of property owner

- **Zoning Requirements Table** (Indicate Required vs. Provided)
  - Zoning District
  - Lot Area
  - Lot Frontage
  - Front, Side & Rear Setbacks of Buildings and Parking Areas
  - Building Height
  - Lot Coverage
  - Green Space
  - Off-Street Parking Spaces

- **Locus Map** (At a scale of 1 inch = 100 feet, showing the entire project and its relation to existing areas, buildings and roads within a distance of 1,000 feet from the project boundaries or such other distances as may be approved or required by the Planning Board.)

- **Plan Index** with latest revision date of each individual plan

3b. **Existing Conditions Plan**

- Name of Surveyor or Surveyor Firm
- Date of survey
- Property lines with bearings and distances
- Monuments set/found at all lot corners
- Easements with bearings and distances suitable for registry filing
- Names of all abutters
- Street names
- Benchmark locations (Based on USGS NGVD – show year)
- NHESP mapped areas (Areas of Estimated and Priority Habitats)
- Existing 21E Contaminated Site Information
- Existing Buildings and Structures
  - [ ] Area of building
  - [ ] Number of stories
  - [ ] Principal use
  - [ ] Setbacks from property lines
  - [ ] Floor elevations
  - [ ] Door locations with sill elevations

2 of 10
Existing Topography:
- Contours at 2' intervals (1' contours or additional spot grades if site is flat)
- Overhead and underground utilities including but not limited to water, sewer, drainage, electric, telephone, cable TV, gas, septic systems, detention structures, wells
- Existing parking/paved areas including pavement type (parking, walkways, etc.)
- All Existing Curbcuts
- Listing of all existing utility owners and contact info located within the project limits
- Adequate utility information outside the site to verify proposed utility connections
- All utility pipe types, sizes, lengths, and slopes
- All utility structure information including rim and invert elevations
- All existing easements within 50 feet of property line - Identify any utility within the easement
- All existing utility easements with bearings and distances
- Existing pavement markings within site and on connecting roads
- Existing features such as walls, curbing, landscaping, trees, walks, fences, trees over 12” caliper, lighting, poles, guys, signs, loading areas, fire hydrants, dumpster locations, known buried slabs, etc...
- Wetlands, floodplain, water protection district delineation including offsets and buffer zones
- Streams, water courses, swales and all flood hazard areas
- Rock Outcroppings
- Test pit locations including groundwater depths when encountered
- Historic buildings within 250 feet of the subject property

3c. Demolition Plan
- Existing Conditions Plan plus:
  - Existing Buildings and Structures to be removed/demolished
  - Existing parking/paved areas to be removed/demolished
  - Existing utilities to be removed/demolished
  - Existing hydrants to be removed
  - Existing features to be removed/demolished such as walls, curbing, landscaping trees, walks, fences, trees over 6” caliper, lighting, poles, guys, signs, etc.
  - Dust Control Measures
  - Proposed construction phase drainage infrastructure plan including (but not limited to) piping and natural watercourse profiles & cross-sections, retention/detention structures, drain manholes, catch basins, gutter inlets, headwalls, water quality BMPs, and erosion & sedimentation control features, etc.

3d. Construction/Layout Plan
- Proposed Buildings and Structures

2e. Grading and Drainage Plan

Existing Conditions Plan and Construction/ Layout Plan plus:

Existing and proposed site grading/ topography-Contours at 2’ intervals (1’ contours or additional spot grades if site is flat)
Proposed parking lots, sidewalks, islands, etc.
- Parking lot grades shall not exceed 5% or be less than 0.5% 

Floor elevations & door locations

Proposed drainage infrastructure plan including but not limited to piping and natural watercourse profiles & cross-sections, infiltration/retention/detention structures, drain manholes, headwalls, roof recharge systems, flow direction, water quality BMPs, etc.

Adequate information off site to verify proposed drain connections

Drainage system profiles including rim and invert elevations, material, types, sizes, lengths, utility crossings and slopes

Utility easements with bearings and distances suitable for registry filing

Delineation of all stockpile areas

Provide safety fencing around stockpiles over 10’ in height or otherwise restrict site access

For applications associated with residential or commercial/industrial subdivisions, include an overall development plan showing all construction activity and proposed grading for all project phases, and show the proposed building envelope within each house lot and the proposed grading, drainage, and storm water disposal for each lot.

A design for the stormwater drainage systems prepared by a Registered Professional Engineer demonstrating that proposed development rates of runoff do not exceed pre-development rates, as required under Massachusetts Stormwater Management Standards.

3f. Utility and Grading Plan (Show appropriate info from Existing Conditions & Construction/Layout Plan)

Include all proposed utilities, including, but not limited to, Water, Sewer, Drainage, Electric, Telephone, Cable TV, Gas, Lighting, Title V Septic Systems & Detention and Retention Structures
- Adequate utility information outside the site to verify proposed utility connections
- All utility pipe types, sizes, lengths, and slopes
- All utility structure information including rim and invert elevations
- Any utility access vaults

   • Plant and tree legend
   • Delineate & label all existing and proposed groundcovers, lawn areas, driveways, walkways, patios and other surface treatments
   • Snow storage areas
   • Proposed irrigation methods (on-site wells to be used unless otherwise approved)
   • Verify sight distances at entrances

3h. Erosion Control Plan (show appropriate information from Existing Conditions and Construction/Layout Plans)
   • Straw bales or straw bale/silt fence combination and compost filter tubes
   • Anti-tracking BMP area at all construction entrances
   • Dust Control (Methods of)
   • Protection of existing and proposed drainage structures with straw bales and/or silt sacks
   • Delineation of all temporary stockpile areas
   • Safety fencing around stockpiles over 10' in height or otherwise restricted site access
   • Straw bales or straw bale/silt fence combination around all stockpiles
   • Include the following notes:
     • All BMP erosion control measures shall be in place prior to demolition or any site work.
     • Erosion Control BMPs shall conform to US EPA, NPDES, MA DEP and Massachusetts Erosion and Sedimentation Control Guidelines for Urban and Suburban Areas.
     • Maintenance specifications for all proposed erosion and sedimentation controls.

3i. Floor Plan
   • Include complete floor plan of all floors (entire building), including existing & proposed work
   • Label all rooms (e.g., bedroom, kitchen, bathroom), and include dimensions of room sizes
   • Show the location of all existing and proposed doors, windows, and walls
   • For non-residential projects: show all existing and proposed seating areas, mechanical/kitchen equipment, backup generators and/or other major functional components of the proposed project
Staff | Applicant
---|---
| | ✗ Identify waste storage and disposal area(s), including detail(s) for dumpster(s) and dumpster pick-up and trash & garbage compaction areas (if any)

**X 3j. Building Elevations**

- ✗ Show all structural building elevations (front, sides and rear façades) that will be affected by the proposed project
- ✗ For additions/alterations: label existing and new construction, as well as items to be removed

   - A written estimate showing, in detail, the projected costs of all site improvements (and off-site improvement) planned
   - Drainage calculations by a registered professional engineer, with storm drainage design conforming to City of New Bedford subdivision regulations, as well as wetland delineations determined by a certified wetland scientist if applicable, for 1, 10, 25 & 100 year storm events

5. **Certified Abutters List** (16 copies)

6. **Proof of Ownership** (Copy of Deed(s) for All Involved Parcels; 16 Copies)

7. **Development Impact Statement (DIS)**, completed per §5350 of Zoning Code, (16 Copies), if required by Board

8. **Traffic Impact & Access Study (TIAS)** (16 Copies), if required by Board

9. **Stormwater Management Report** (9 Copies), if required, comprised of the following:
   - MADEP Stormwater Standards Compliance Checklist (signed & stamped)
   - Overall Project Description
   - Existing Conditions
X Proposed Improvements
X Proposed Conditions
X Hydrologic Analysis for Existing & Proposed Conditions for Milestone Storm Event Intensities
X Stormwater Management Regulations
X Summary
X Appendix - Existing/Proposed Conditions Plans showing the following:
  X Overall Existing Subcatchment Area Table
    • Subcatchment Labeled, Design Point, Area, Curve number, Tc (min.)
  X Soil Classifications Table (Existing Soils)
    • Map Unit Symbol, Map Unit Name, Hydrologic Soil Code
X Overall Proposed Subcatchment Area Table
  • Subcatchment Labeled, Design Point, Area, Curve number, Tc (min.)
X Soil Classifications Table (Including Proposed Boron Soils, Etc., if applicable)
  • Map Unit Symbol, Map Unit Name, Hydrologic Soil Code
X Appendix - Hydrologic Analyses
  X HydroCAD Software Analyses (or equivalent software) Analyses (Existing & Proposed Conditions)
X Appendix - Illicit Discharge Certification (signed & dated)

10. Electronic PDF and AutoCAD Files
X Shall consist of a CD with a printed CD Label in a CD case
X CAD files shall be 2010 format or the latest revision of AutoCAD Civil 3D
X All project submissions shall include the following file types. All project related Drawing Files shall be provided in all 2 supported formats, listed below.
  • AutoCAD Drawing format (.dwg)
  • Adobe Portable Document Format (.pdf)
X PDF files shall be created from within the AutoCAD environment and contain Layer information.
X It is a requirement that each project drawing/sheet created for a project shall be published/plotted to DWG and PDF, and placed in the appropriate folder in the CD submission. All external references (DWG, DWF, DGN, PDF, TIFF, MrSID, JPG, etc.) which are used in support of the creation of these project sheets shall be stored within the XREF folder only (Subfolder of DWG) on the CD. Also the AutoCAD support files (fonts, plot style, etc.) should be supplied on the CD.

X File Naming:
The following file naming standard for all CAD related files created, used, or submitted to the Planning Department shall be followed. This applies to all CAD drawings, DWF's, PDF's used in support of, or used in conjunction with this CAD Standard.
Applicant

File names shall begin with their project Planning Board Case number assigned (available through the Planning Department), followed by an underscore and the appropriate discipline code. In the instance where there is more than one file, assign an appropriate sequential number to the end (ex. 1,2,3). Special characters are not permitted except for the following; hyphens [-], underscores [ _ ], and/or parenthesis [ ( ) ].

Example 1.
A set of engineering design plans and documents were prepared for project file number 12-34; acceptable filenames would be as follows:
12-34_Existing Conditions1.dwg
12-34_Existing Conditions2.dwg
12-34_General1.dwg
12-34_Generale.dwg

QUITCLAIM DEED

THE GOODYEAR TIRE & RUBBER COMPANY, a corporation organized and existing under the laws of the State of Ohio, with a principal place of business in Akron, Ohio,

for consideration paid, and in full consideration of ONE MILLION FIVE HUNDRED FIFTY THOUSAND AND NO/100 ($1,550,000.00),

grants to CLARK'S COVE DEVELOPMENT CO., LLC, a Massachusetts Limited Liability Company with a usual place of business located at 651 Orchard Street, Suite 200, New Bedford, MA 02744,

land in New Bedford,

Beginning at the northwesterly corner thereof at the intersection of Bolton Road and Swift Street; thence running easterly by said Swift Street four hundred forty-five (445) feet, more or less, to Orchard Street; thence running southerly by said Orchard Street nine hundred eighty and eighty one-hundredths (980.80) feet to property now or formerly of the Gosnold Mills; thence running westerly at an interior angle of eighty-nine degrees fifty-one minutes (89° 51') by said Gosnold Mills land in part through the center of a brick wall five hundred forty-one and eighty-three one-hundredths (541.83) feet, more or less, to said Bolton Road; and thence running northerly by said Bolton Road about nine hundred eighty-five (985) feet to the point of beginning.

Together with all the right, title and interest of the Grantor in, to and concerning a certain twenty-four inch (24") pipe, commencing at the dividing line between the above-described parcel and said land of the Gosnold Mills property and running through said land of the Gosnold Mills property and running through said land of the Gosnold Mills property through Orchard and Cove Streets; thence through a twenty (20) foot strip of land to and into the water of Clark's Cove to a certain well or structure therein situated, particularly including herein all the right, title and interest of the Grantor in and to said twenty (20) foot strip of land and said well or structure and all other rights included or specified in, and subject to the obligations contained in, two certain instruments from the New England Cotton Yarn Company to and with Lawrence A. Ford, both dated August 14, 1902 and respectively recorded with said Bristol County, South District Registry of Deeds, Book 228, Pages 286 and following and Book 228, Pages 294 and following.

Subject to and with the benefit of easements and restrictions of record insofar as they may be in full force and effect.

Being the same premises conveyed Grantor by deed dated December 31, 1956 and recorded in the Bristol County (S.D.) Registry of Deeds in Book 1209, Page 100.

This sale does not constitute substantially all of the assets of said Corporation.
IN WITNESS WHEREOF, the said GOODYEAR TIRE & RUBBER COMPANY, has caused its corporate seal to be hereto affixed and these presents to be signed, acknowledged, and delivered in its name and behalf by AJ DELGUIYD its DIRECTOR - REAL ESTATE, hereto duly authorized, this 11th day of October 2004.

PROJECT NARRATIVE

Site Description

The project area associated with the proposed development is located on the west side of Orchard Street, between the cross streets of Swift to the north and Cove Road to the south. The site is comprised of one proposed parcel, identified as a portion of Assessors Map 23, Lots 158 & 294. The parcel contains approximately 1.06 acres and is located entirely within the Mixed-Use Business District.

The site is a portion of a large undeveloped piece of land that has been left vacant for many years prior to this project and has been predominantly used as a stockpile area for abutting projects. Going back several decades, this property was used for a large-scale industrial company, and upon the departure of said company, the existing features were all demolished and the grounds were cleared and left roughly graded. Since then, previous owners have prepped the site for possible future development, and now there are several existing utility stubs, an existing drainage system that services nearby properties that lies within a utility easement and access to the site via an existing curb cut along its frontage. The site’s frontage lies along the right-of-way known as Orchard Street, and the site is bounded on the south and west by other vacant property left undeveloped. To the north is a recently developed piece of land that now contains the commercial business known as Family Dollar. The surrounding neighborhood includes businesses as well as residential living and can be classified as largely developed urban areas. All the proposed falls outside of any wetland areas or areas subject to flooding, and no protected wildlife habitats or species are known to exist in this area either.

Project Description

The applicant is seeking permission to construct a 10,000 S.F. commercial building that will house a retail business, as well as site improvements such as parking areas, ingress/egress driveways, and typical utility services and installations. Specifically, the proposed work will close out the existing curb cut on Orchard Street while installing two new ones, the parking areas will contain a total of 50 individual parking spaces and the site will be serviced by new water, sewer and electrical services to be tied into the existing services within Orchard Street. By utilizing the existing stormwater drainage system on site, the underground recharge area can be reduced, and total site runoff has been nearly eliminated.
Stormwater management practices have been taken into consideration and a full report has been included with this submittal. All necessary drainage calculations have been carried out to ensure that the post-development conditions are an improvement to the pre-development conditions. This report also includes simulations for multiple storm events as well as a pre-development and post-development watershed plan.

Zoning Information

This subject property falls in the MUB (Mixed Use Business) Zoning district. All zoning bylaws have been taken into consideration in terms of dimensional regulations and the site is within full compliance of those. Specifically, setbacks to all property lines and lot coverage percentages have been kept under the maximum allowed.

Construction Sequence

The preparation of the site for the proposed construction will follow the normal procedures for work of this type. The steps that follow are to be used as a guideline and may have to be adjusted due to site or weather conditions or unforeseen circumstances. A full construction sequence calendar will be produced once final comments and discussions have taken place between the applicant, their representation and all required city boards and commissions. The total expected cost of this project is $785,000 at this time subject to change dependent on vendor and site contractor rate schedules in effect at the time of construction.

IX. HOMEOWNER LICENSE EXEMPTION

Supplement #1
The current exemption for “homeowner” was extended to include owner-occupied dwellings of two units or less and to allow such homeowners to engage an individual for hire who does not possess a license, provided that the owner acts as supervisor. (State Building Code Section 110.5)

DEFINITION OF HOMEOWNER:
Person(s) who own a parcel of land on which he/she resides or intends to reside, on which there is, or is intended to be, a one to two family dwelling, attached or detached structures accessory to such use and/or farm structures. A person who constructs more than one home in a two year period shall not be considered a homeowner. Such homeowner shall submit to the Building Official, on a form acceptable to the Building Official, that he/she shall be responsible for all such work performed under the building permit. (Section 110.5)

The undersigned “homeowner” assumes responsibility for compliance with the State Building Code and other applicable codes, ordinance, rules and regulations, and will comply with the City of New Bedford Building Department minimum inspection procedures and requirements.

5400. - SITE PLAN REVIEW.

5410. Purpose. The purpose of this Section is to provide for individual detailed review of development proposals which have an impact on the natural or built environment of the City in order to promote the health, safety and general welfare of the community; to ensure adequate parking, safe and accessible pedestrian and vehicular circulation; and to minimize traffic impact on City streets.

(Ord. of 12-23-03, § 1)

5420. Applicability. The following types of activities and uses require site plan review by the Planning Board:

5421. Any new industrial or commercial construction or expansion over two thousand (2,000) gross square feet or any new industrial or commercial construction or expansion requiring more than five (5) additional parking spaces;

5422. New multiple-family residential construction of three (3) or more units or expansion of existing multifamily residential structures resulting in the creation of one or more additional units.

5423. Any new construction or expansion of existing construction where a drive-thru window for any service including self-service is proposed; and any expansion of a structure presently containing a drive-thru; or any facility currently containing a drive-thru, at which the owner or operator of the drive-thru is altered or changed; or at which the drive-thru is closed for a period of 10 days or more and to be reopened.

5424. Any residential subdivision which is submitted under the subdivision control process;

5425. New industrial or commercial construction or additions less than two thousand (2,000) square feet if requiring a new curb cut or driveway or if substantially affecting existing internal circulation.

5426. Driveways in residential areas which require more than one new curb cut.

5427. Commercial or industrial ground signs.

(Ord. of 12-23-03, § 1; Ord. of 12-31-08, § 1)

5430. Procedures. Applicants for site plan approval shall submit seventeen (17) copies of the site plan to the Planning Board for distribution to City departments and commissions for their review. The Planning Board shall review and act upon the site plan, with such conditions as may be deemed appropriate and notify the applicant of its decision. In the event two (2) meetings have lapsed after the application for site plan approval is filed, without the Planning Board taking action on said site plan said Applicant may file a statement with the Board that the Board has received complete information in accordance with this Ordinance and has had adequate time to consider the Site Plan. Upon receiving said statement, the Planning Board shall act on said Site Plan at its next meeting, if said Board determines that the Board has, in fact, received complete information in accordance with this Ordinance. The decision of the Planning Board
shall be a vote of a majority of the members of the Planning Board and shall be in writing. No building permit, for activities requiring site plan approval, shall be issued by the Inspector of Buildings without the written approval of the site plan by the Planning Board.

5431. Application for Building Permit. An application for a building permit to perform work as set forth in Section 5410 available as of right shall be accompanied by an approved site plan.

5432. Application for Special Permit or Variance. An application for a special permit or a variance to perform work as set forth in Section 5420 shall be accompanied by an approved site plan; in the alternative, any special permit or variance granted for work set forth in Section 5420 shall contain the following condition and cause the same to be written on such special permit or variance:

The work described herein requires the approval of a site plan by the New Bedford Planning Board pursuant to Section 5400 of the Zoning Ordinance. Any conditions imposed in such site plan approval shall also be conditions of this special permit/variance.

5433. Where the Planning Board approves a site plan "with conditions", and said approved site plan accompanies a special permit or variance application to the Board of Appeals, the conditions imposed by the Planning Board shall be incorporated into the issuance, if any, of a special permit or variance by the Board of Appeals.

5434. Where the Planning Board serves as the special permit granting authority for proposed work, it shall consolidate its site plan review and special permit procedures.

5435. The applicant may request, and the Planning Board may grant by majority vote of its' membership, an extension of the time limits set forth herein.

5436. No deviation from an approved site plan shall be permitted without modification thereof.

5437. Site plan approval does not constitute a certification that the proposed plan conforms to applicable zoning regulations, wetland regulations and/or any other City, state or federal requirements that must be obtained prior to implementation the of elements of the site plan.

(Ord. of 12-23-03, § 1)

5440. Preparation of Plans. Applicants are invited to submit a pre-application sketch of the proposed project to the Planning Department and are encouraged to schedule a pre-submission meeting with the Planning Department. Site Plans shall be submitted on 24-inch by 36-inch sheets. Plans shall be prepared by a Registered Professional Engineer, Registered Land Surveyor, Architect, or Landscape Architect, as appropriate. Dimensions and scales shall be adequate to determine that all requirements are met and to make a complete analysis and evaluation of the proposal. All plans shall have a minimum scale of 1" = 40'.

(Ord. of 12-23-03, § 1)
5450. Contents of Plan. The contents of the site plan are as follows:

5451. Plan sheets prepared at a scale of one inch equals forty (40) feet or such other scale as may be approved by the Planning Board. The plans are as follows:

5451.a. Site layout, which shall contain the boundaries of the lot(s) in the proposed development, proposed structures, general circulation plan for vehicles and pedestrians, drive-thru windows, curb cut locations, parking, fences, walls, walks, outdoor lighting including proposed fixtures, loading facilities, solid waste storage locations, and areas for snow storage after plowing. The first sheet in this plan shall be a locus plan, at a scale of one inch equals one hundred (100) feet, showing the entire project and its relation to existing areas, buildings and roads for a distance of one thousand (1,000) feet from the project boundaries or such other distance as may be approved or required by the Planning Board.

5451.b. Topography and drainage plan, which shall contain the existing and proposed final topography at two-foot intervals and plans for handling stormwater runoff drainage.

5451.c. Utility plan, which shall include all facilities for refuse and sewerage disposal or storage of all these wastes, the location of all hydrants, fire alarm and firefighting facilities on and adjacent to the site, all proposed recreational facilities and open space areas, and all wetlands including floodplain areas.

5451.d. Architectural plan, which shall include the ground floor plan, proposed exterior building materials, treatments and colors and architectural elevations of all proposed buildings and a color rendering where necessary to determine the proposal's affect on the visual environment.

5451.e. Landscaping plan, showing the limits of work, existing tree lines as well as those tree lines to remain, and all proposed landscape features and improvements including screening, planting areas with size and type of stock for each shrub or tree, and including proposed erosion control measures during construction.

5451.f. Lighting plan showing the location and orientation of all existing and proposed exterior lighting, including building and ground lighting. The plan shall note the height, initial foot-candle readings on the ground and the types of fixtures to be used.

5452. The site plan shall be accompanied by a written statement indicating the estimated time required to complete the proposed project and any and all phases thereof. There shall be submitted a written estimate, showing in detail the costs of all site improvements planned.

5453. A written summary of the contemplated project shall be submitted with the site plan indicating, where appropriate, the number of dwelling units to be built and the acreage in residential use, the evidence of compliance with parking and off-street loading requirements, the forms of ownership
contemplated for the property and a summary of the provisions of any ownership or maintenance thereof, identification of all land that will become common or public land, and any other evidence necessary to indicate compliance with this Ordinance.

5454. The site plan shall be accompanied by drainage calculations by a registered professional engineer as well as wetland delineations, if applicable. Storm drainage design must conform to City of New Bedford subdivision regulations.

5455. The Planning Board may require a DIS as set forth in Section 5300, above.

5456. Certification that the proposal is in compliance with the provisions, if applicable, of the Americans with Disabilities Act and the Massachusetts Architectural Barriers Board.

(Ord. of 12-23-03, § 1)

5460. Waivers. The Planning Board may, upon written request of the applicant, waive any of the submittal or technical requirements of Section 5430 and 5440 where the project involves relatively simple development plans.

(Ord. of 12-23-03, § 1)

5470. Approval. Site Plan approval shall be granted upon determination by the Planning Board that the plan meets the following objectives: The Planning Board may impose reasonable conditions at the expense of the applicant, including performance guarantees, to promote these objectives. Any new building construction or other site alteration shall provide adequate access to each structure for fire and service equipment and adequate provision for utilities and stormwater drainage consistent with the functional requirements of the Planning Board’s Subdivision Rules and Regulations. New building construction or other site alteration shall be designed in the Site Plan, after considering the qualities of the specific location, the proposed land use, the design of building form, grading, egress points, and other aspects of the development, so as to:

5471. Minimize: the volume of cut and fill, the number of removed trees six-inch caliper or larger, the length of removed stone walls, the area of wetland vegetation displaced, the extent of stormwater flow increase from the site, soil erosion, and the threat of air and water pollution;

5472. Maximize: pedestrian and vehicular safety to and from the site;

5473. Minimize obstruction of scenic views from publicly accessible locations;

5474. Minimize visual intrusion by controlling the layout and visibility of parking, storage, or other outdoor service areas viewed from public ways or premises which are residentially used or zoned;

5475. Minimize glare from vehicle headlights and lighting fixtures;
5476. Minimize unreasonable departure from the character, materials, and scale of buildings in the vicinity, as viewed from public ways and places.

5477. Minimize contamination of groundwater from on-site wastewater disposal systems or operations on the premises involving the use, storage, handling, or containment of solid and liquid wastes and hazardous substances;

5478. Ensure compliance with the provisions of this Zoning Ordinance.

5479. Minimize damage to existing adjacent public ways.

5479A. Promote orderly and reasonable internal circulation within the site so as to protect public safety and not unreasonably interfere with access to a public way or circulation of traffic on a public way in general.

(Ord. of 12-23-03, § 1)

**5480. Lapse.** Site plan approval shall lapse after one year from the final approval if a substantial use in accordance with such approved plans has not commenced except for good cause. Such approval may, for good cause, be extended in writing by the Planning Board upon the written request of the applicant, within this one-year period.

(Ord. of 12-23-03, § 1)

**5490. Regulations.** The Planning Board may adopt and from time to time amend reasonable regulations for the administration of these Site Plan guidelines.

(Ord. of 12-23-03, § 1)

**5490A. Fee.** The Planning Board may, from time to time, adopt reasonable administrative fees and technical review fees for site plan review.

(Ord. of 12-23-03, § 1)

**5490B. Appeal.** Any person aggrieved by a decision of the Planning Board rendered pursuant to Section 5400 may appeal such decision to the Zoning Board of Appeals as provided in M.G.L.A. c. 40A, § 8.

VII. WORKER'S COMPENSATION INSURANCE AFFIDAVIT

I, ________________________________

(licensee/permittee) with a principal place of business/residence at:

______________________________

(City/State/Zip) do hereby certify, under the pains and penalties of perjury, that:

[ ] I am an employer providing worker's compensation coverage for my employees working on this job.

Insurance Company ________________________________ Policy Number ________________________________

[ ] I am a sole proprietor and have no one working for me.

[ ] I am a sole proprietor, general contractor, or homeowner and have hired the contractors listed below who have the following worker's compensation insurance policies:

[ ] I am a homeowner performing all the work myself.

NOTE: Please be aware that while homeowners who employ persons to do maintenance, construction or repair work on a dwelling of not more than three units in which the homeowner also resides or on the grounds appurtenant thereto are not generally considered to be employers under the Workers' Compensation Act (GL. C. 152, sect. 1(5)), application by a homeowner for a license or permit may evidence the legal status of an employer under the Workers' Compensation Act.

I understand that a copy of this statement will be forwarded to the Department of Industrial Accidents' Office of Insurance for coverage verification and that failure to secure coverage as required under Section 25A of MGL 152 can lead to the imposition of criminal penalties consisting of a fine of up to $1,500.00 and/or imprisonment of up to one year and civil penalties in the form of a Stop Work Order and a fine of $100.00 a day against me.
