PROJECT NARRATIVE
PROJECT NARRATIVE
JUNE 5, 2019

PROJECT: ACTIVEDAY ADULT DAY CARE FACILITY
34 WELBY ROAD
NEW BEDFORD, MASSACHUSETTS
ASSESSORS MAP 132E–LOTS 99

APPLICANT: WELBY PARK ASSOCIATES, LLC
1 WELBY ROAD
NEW BEDFORD, MA 02745

ZONING DISTRICTS: INDUSTRIAL A

EXISTING SITE CONDITIONS

The subject property is a 1.23 acre parcel located on the west side of Dureen Street and the south side of Welby Road, New Bedford. The property is bordered by Welby Road on the north, a commercial parking lot on the west, a single family home and undeveloped woodlands on the south and Dureen Street on the east.

The easterly portion of the property contains a two story office building with associated landscaped areas and pedestrian walkways. The westerly portion of the site contains a paved, 69 space parking lot with separate entrance and exit drives connecting the site to Welby Road.

Access to the site is limited to the Welby Road driveway and the building is served by municipal water and sewer services. The site slopes away from the public ways and toward the southwest parking lot corner where there is a catch basin for runoff control.

PROPOSED DEVELOPMENT

The Applicant, Welby Park Associates, LLC is proposing to renovate the first floor of the office building to accommodate an adult day care facility. Revisions to the existing site conditions are as follows:

1. Convert the first floor office space to an adult day care;
2. Add an additional building entrance on the west side of the structure to facilitate client access to the facility;

3. Provide a canopy covered drop off spot at the new building entrance for weather protected drop off of clients;

4. Restripe the parking lot to meet current City of New Bedford parking standards;

5. Add improved ADA compliant parking spaces with loading zones for improved accessibility to the structure;

6. Create an exterior fenced in patio area for use by the clients in a controlled, supervised area.

The completed project will provide a much needed upscale adult day care facility with good public access without impacting the surrounding neighborhood.

It is anticipated that the project will take 4-6 months to complete. Preliminary cost estimates for this project range from $300,000 - $350,000.
SITE PLAN REVIEW
APPLICATION / CHECKLIST
PLANNING BOARD

CITY OF NEW BEDFORD
JONATHAN F. MITCHELL, MAYOR

SITE PLAN REVIEW APPLICATION

The undersigned, being the Applicant, seeks Site Plan Approval for property depicted on a plan entitled: 

Active Day Adult Day Care by: Sitec, Inc. dated: June 5, 2019

3. Zoning Classifications

Present Use of Premises: Industrial A

Proposed Use of Premises: Adult Day Care/Office

Zoning Relief Previously Granted (Variances, Special Permits, with Dates Granted):
ZBA Special Permit Case #4376 Granted on May 23, 2019

4. Briefly Describe the Proposed Project:
The Applicant proposes to convert the first floor office space of an existing commercial building to an Adult Day Care Facility. The second floor will remain as general office space. The Adult Day Care improvements will include the interior renovations and the addition of a drop off canopy area and a fenced in exterior patio for supervised use by the Day Care Facility clients. A restriping of the parking lot and an increase in ADA compliant parking spaces is also proposed. No changes to drainage or utility systems are proposed.

Date  Signature of Land Owner (If authorized Trustee, Officer or Agent, so identify)
NOTICE BY PUBLICATION & ABUTTERS NOTIFICATION
(Follow Massachusetts General Laws, Chapter 40A, Section 5)

1) The applicant shall be responsible for paying for the legal advertisements in the New Bedford Standard-Times once in each of two (2) successive weeks, the first publication to be not less than fourteen (14) days prior to the date of said hearing. This cost is included in the Application Fee. The City of New Bedford Planning Division shall be responsible for placing the legal ad in the New Bedford Standard-Times.

2) The applicant shall be responsible for certifying the abutters list and mailing, by Certified Mail, with Return Receipt Requested, a copy of the notice to each affected abutter.

3) A Legal Advertisement will be drafted by Planning Staff, including the date, time and location of the public hearing, and provided to the Applicant upon submittal of a complete application. This Legal Advertisement may not be altered or amended by the Applicant prior to use in notifying Abutters.
Site Plan Review Application Checklist

In order for the City of New Bedford Planning Board to accurately review your project in a timely manner, plan sets submitted with applications must be complete and thorough. A comprehensive understanding of this handout and submittal of all required documents and plans ensures an efficient review of your project.

Unless otherwise noted or determined by Planning Division Staff to not be required, the following information and drawings must be included in the submittal package for your application. For an application to be accepted, each and every item is required at the time of application submittal.

In certain instances, plans, or portions of plans, may be waived when not applicable for the review of a particular type of development, at the discretion of the City Planner. Requests for any such waiver(s) must be submitted, in writing, to Planning Division for consideration prior to application submittal.

All submitted materials must be legible, organized & bound (where appropriate) in a manner that allows for distribution of all proposal materials as 1 package. Please utilize double-sided printing for submitted reports, studies and statements when possible.

</tbody>
</table>

1. **Completed Application Form** (with all required signatures; 16 Copies)

2. **Completed Site Plan Review Application Checklist** (1 original & 15 copies)

3. **Plans**
   - Four (4) stapled and folded sets of full-sized plans (24" x 36") and Twelve (12) sets of reduced plans (11" x 17") are required for all applications. Staff reserves the right to require additional copies.
   - One (1) electronic copy (PDF & CAD) of all proposed activity plans (See Section 10 of Checklist for Requirements)
   - All plans oriented so that north arrow points to top of sheet
   - Plans shall be drawn at a minimum scale of 1" = 40' or less
   - All plans shall be stamped by Commonwealth of Massachusetts-registered Professional Engineer, Professional Land Surveyor, and/or Professional Landscape Architect, as appropriate
   - Plan sets shall be comprised of separate sheets as listed below unless otherwise approved by the City Planner
   - All plans shall have a title block comprised of the following: Project Title, Sheet Title, Sheet Number; Registrant Stamp (i.e. PE, PLS, LA); Registrant's name and address; Street addresses of the project area parcels; Scale at which the plan is drawn; Plan Issue Date; and all plan revision dates (with corresponding revision descriptions).
3a. **Cover Sheet**, to include the following information:

- **Title Block**
  - Project name/title
  - Assessor's map and parcel number(s)
  - Registry Book and Page
  - Name and address of property owner

- **Zoning Requirements Table** (Indicate Required vs. Provided)
  - Zoning District
  - Lot Area
  - Lot Frontage
  - Front, Side & Rear Setbacks of Buildings and Parking Areas
  - Building Height
  - Lot Coverage
  - Green Space
  - Off-Street Parking Spaces

- **Locus Map** (At a scale of 1 inch = 100 feet, showing the entire project and its relation to existing areas, buildings and roads within a distance of 1,000 feet from the project boundaries or such other distances as may be approved or required by the Planning Board.)

- **Plan Index** with latest revision date of each individual plan

---

3b. **Existing Conditions Plan**

- Name of Surveyor or Surveyor Firm
- Date of survey
- Property lines with bearings and distances
- Monuments set/found at all lot corners
- Easements with bearings and distances suitable for registry filing
- Names of all abutters
- Street names
- Benchmark locations (Based on USGS NGVD – show year)

- **NHESP mapped areas** (Areas of Estimated and Priority Habitats)

- **Existing 21E Contaminated Site Information**
  - Existing Buildings and Structures
    - Area of building
    - Number of stories
    - Principal use

- Setbacks from property lines
- Floor elevations
- Door locations with sill elevations
3c. Demolition Plan

- Existing Conditions Plan plus:
  - Existing Buildings and Structures to be removed/demolished
  - Existing parking/paved areas to be removed/demolished
  - Existing utilities to be removed/demolished
  - Existing hydrants to be removed
  - Existing features to be removed/ demolished such as walls, curbing, landscaping trees, walks, fences, trees over 6” caliper, lighting, poles, guys, signs, etc.
  - Dust Control Measures
  - Proposed construction phase drainage infrastructure plan including (but not limited to) piping and natural watercourse profiles & cross-sections, retention/detention structures, drain manholes, catch basins, gutter inlets, headwalls, water quality BMPs, and erosion & sedimentation control features, etc.

3d. Construction/Layout Plan

- Proposed Buildings and Structures
Area of building or additions
Number of stories
Principal use
Floor elevations
Door locations with sill elevations

Proposed Topography, including but not limited to:

- Proposed contours at 2' intervals
- Parking lot setbacks to property line
- Parking lot grades (not to exceed 5% or be less than 0.5%)
- Walls
- Parking spaces (delineated and dimensioned)
- Accessible parking spaces & aisles
- Wheelchair ramps
- Sidewalks
- Pavement type(s)

Critical dimensions including aisle widths, parking stall dimensions, curb radius, driveway openings, etc.

Grading at entrance-show spot grades if required
Emergency Vehicle Access
Truck Access (WB-50 unless otherwise approved by City Engineer)
Snow Storage Areas, with limits of any fence protection (if applicable)

Construction notes, including the following notes:
- Any minor modifications (as determined by the City Engineer) to the information shown on the approved site plans shall be submitted to the City Engineer as a Minor Plan Revision for approval prior to the work being performed.
- Any work and material within the City right-of-way shall conform to the City of New Bedford requirements
- All handicap parking, ramps, and access shall conform to AAB & MAAB requirements
- All erosion control measures shall be in place prior to construction. Erosion Control shall conform to the City of New Bedford Conservation Commission requirements as stated in the Order of Conditions. (Refer to Erosion Control Plan if part of submission)
- All pavement markings and signs shall conform to MUTCD requirements

2e. Grading and Drainage Plan

- Existing Conditions Plan and Construction/ Layout Plan plus:

Existing and proposed site grading/ topography-Contours at 2’ intervals (r’contours or additional spot grades if site is flat)
Proposed parking lots, sidewalks, islands, etc.
• Parking lot grades shall not exceed 5% or be less than 0.5 %
Floor elevations & door locations
Proposed drainage infrastructure plan including but not limited to piping and natural watercourse profiles & cross-sections, infiltration/retention/detention structures, drain manholes, headwalls, roof recharge systems, flow direction, water quality BMPs, etc.
Adequate information off site to verify proposed drain connections
Drainage system profiles including rim and invert elevations, material, types, sizes, lengths, utility crossings and slopes
Utility easements with bearings and distances suitable for registry filing
Delineation of all stockpile areas
Provide safety fencing around stockpiles over 10' in height or otherwise restrict site access
For applications associated with residential or commercial/industrial subdivisions, include an overall development plan showing all construction activity and proposed grading for all project phases, and show the proposed building envelope within each house lot and the proposed grading, drainage, and storm water disposal for each lot.
A design for the stormwater drainage systems prepared by a Registered Professional Engineer demonstrating that proposed development rates of runoff do not exceed pre-development rates, as required under Massachusetts Stormwater Management Standards.

3f. Utility and Grading Plan (Show appropriate info from Existing Conditions & Construction/Layout Plan)
Include all proposed utilities, including, but not limited to, Water, Sewer, Drainage, Electric, Telephone, Cable TV, Gas, Lighting, Title V Septic Systems & Detention and Retention Structures
• Adequate utility information outside the site to verify proposed utility connections
• All utility pipe types, sizes, lengths, and slopes
• All utility structure information including rim and invert elevations
• Any utility access vaults
• All utility access handholes
• All water services, hydrants, gates, shutoffs, tees
• Utilities shall be underground if possible
• All transformer locations
• Required utility easements with dimensional bearings and distances
Force main, if required, conforming to City of New Bedford requirements
Water main loop
Sewer profile showing all utility crossings
Sections through detention basin(s)
Include the following notes:
• The contractor shall obtain a Street Disturbance & Obstruction Permit prior to any construction within the right-of-way
• All water and sewer material and construction shall conform to the City of New Bedford requirements
All water and sewer construction shall be inspected by the City Of New Bedford before being backfilled
The City shall be notified at least 24 hours prior to the required inspections
Detention basin, retention basin or other stormwater mechanisms (such as infiltration devices), if proposed.

3g. **Landscape Plan**
- Location, species & size of all proposed plantings
- All existing landscaping to be removed or retained
- Plant and tree legend
- Delineate & label all existing and proposed groundcovers, lawn areas, driveways, walkways, patios and other surface treatments
- Snow storage areas
- Proposed irrigation methods (on-site wells to be used unless otherwise approved)
- Verify sight distances at entrances

3h. **Erosion Control Plan** (show appropriate information from Existing Conditions and Construction/Layout Plans)
- Straw bales or straw bale/silt fence combination and compost filter tubes
- Anti-tracking BMP area at all construction entrances
- Dust Control (Methods of)
- Protection of existing and proposed drainage structures with straw bales and/or silt sacks
- Delineation of all temporary stockpile areas
- Safety fencing around stockpiles over 10’ in height or otherwise restricted site access
- Straw bales or straw bale/silt fence combination around all stockpiles
- Include the following notes:
  - All BMP erosion control measures shall be in place prior to demolition or any site work.
  - Erosion Control BMPs shall conform to US EPA, NPDES, MA DEP and Massachusetts Erosion and Sedimentation Control Guidelines for Urban and Suburban Areas.
  - Maintenance specifications for all proposed erosion and sedimentation controls.

3i. **Floor Plan**
- Include complete floor plan of all floors (entire building), including existing & proposed work
- Label all rooms (e.g., bedroom, kitchen, bathroom), and include dimensions of room sizes
- Show the location of all existing and proposed doors, windows, and walls
- For non-residential projects: show all existing and proposed seating areas, mechanical/kitchen equipment, backup generators and/or other major functional components of the proposed project
3i. Building Elevations

- Identify waste storage and disposal area(s), including detail(s) for dumpster(s) and dumpster pick-up and trash & garbage compaction areas (if any)

3j. Building Elevations

- Show all structural building elevations (front, sides and rear façades) that will be affected by the proposed project
- For additions/alterations: label existing and new construction, as well as items to be removed
- Identify all existing and proposed exterior materials, treatments and colors - including roofing, roof eaves, eave brackets, siding, doors, trim, sills, windows, fences, and railings.
- Show details of proposed new exterior elements
- Show any exterior mechanical, duct work, and/or utility boxes
- Include dimensions for building height, wall length and identify existing and proposed floor elevations

3k. Sign Plan

- Fully-dimensioned color elevations for all proposed signs
- Total square footage of existing signs and total square footage of proposed signs
- Existing and proposed sign locations on site plan
- Existing and proposed materials and methods of lighting for all signs

3l. Lighting Plan

- Location and orientation of all existing and proposed exterior lighting, including building and ground lighting and emergency spot lighting (if any)
- Height and initial foot-candle readings on the ground and the types of fixtures to be used
- Plan Must Show Illumination Patterns On-Site and Areas Off-Site
- New Bedford Washingtonian Type Fixtures Should Be Used, Where Applicable
- Provide Cut Sheet for All Lighting Fixtures

3m. Detail Sheets (Typical Details)

- Pavement Section Detail
- Sidewalk Detail
- Curb Detail
- Driveway Detail
- Wheel Chair Ramp Detail
- Concrete Pad Detail
- Catch Basin Detail
- Drainage Manhole Detail
- Water/Sewer Trench Details (12" envelope)
- Sewer Manhole Detail (26" cover)
- Detention / Retention Basin Sections (from plan)
- Detention Basin Outlet Structure Detail
- Miscellaneous Detention / Retention Basin Details
- Infiltration Device Details
- Stormwater BMPs (Water Quality Structure Details, etc.)
- Bollards
4. **Project Narrative** (16 Copies), to include adequate summary & description of the proposed project and indicating, where appropriate:

- The number of dwelling units to be built and the acreage in residential use
- Evidence of compliance with parking and off-street loading requirements
- The forms of ownership contemplated for the property and a summary of the provisions of any ownership or maintenance thereof
- Identification of all land that will become common or public land
- Any other evidence necessary to indicate compliance with the zoning ordinance
- A written statement indicating the estimated time required to complete the proposed project and any and all phases thereof
- A written estimate showing, in detail, the projected costs of all site improvements (and off-site improvement) planned
- Drainage calculations by a registered professional engineer, with storm drainage design conforming to City of New Bedford subdivision regulations, as well as wetland delineations determined by a certified wetland scientist if applicable, for 1, 10, 25 & 100 year storm events

5. **Certified Abutters List** (16 copies)

6. **Proof of Ownership** (Copy of Deed(s) for All Involved Parcels; 16 Copies)

7. **Development Impact Statement (DIS)**, completed per §5350 of Zoning Code, (16 Copies), if required by Board

8. **Traffic Impact & Access Study (TIAS)** (16 Copies), if required by Board

9. **Stormwater Management Report** (9 Copies), if required, comprised of the following:

- MADEP Stormwater Standards Compliance Checklist (signed & stamped)
- Overall Project Description
- Existing Conditions
Electronic PDF and AutoCAD Files

☑ Shall consist of a CD with a printed CD Label in a CD case
☑ CAD files shall be 2010 format or the latest revision of AutoCAD Civil 3D
☑ All project submissions shall include the following file types. All project related Drawing Files shall be provided in all 2 supported formats, listed below.
   • AutoCAD Drawing format (.dwg)
   • Adobe Portable Document Format (.pdf)
☑ PDF files shall be created from within the AutoCAD environment and contain Layer information.
☑ It is a requirement that each project drawing/sheet created for a project shall be published/plotted to DWG and PDF, and placed in the appropriate folder in the CD submission. All external references (DWG, DWF, DGN, PDF, TIFF, MrSID, JPG, etc.) which are used in support of the creation of these project sheets shall be stored within the XREF folder only (Subfolder of DWG) on the CD. Also the AutoCAD support files (fonts, plot style, etc.) should be supplied on the CD.

☒ File Naming:

The following file naming standard for all CAD related files created, used, or submitted to the Planning Department shall be followed. This applies to all CAD drawings, DWF’s, PDF’s used in support of, or used in conjunction with this CAD Standard.
Applicant

File names shall begin with their project Planning Board Case number assigned (available through the Planning Department), followed by an underscore and the appropriate discipline code. In the instance where there is more than one file, assign an appropriate sequential number to the end (ex. 1,2,3). Special characters are not permitted except for the following; hyphens [-], underscores [ _ ], and/or parenthesis [ ( ) ].

Example 1.
A set of engineering design plans and documents were prepared for project file number 12-34; acceptable filenames would be as follows:
12-34_Existing CONDITIONS1.dwg
12-34_Existing CONDITIONS2.dwg
12-34_Generals.dwg
12-34_Generale.dwg

11. Application Fee (All fees are due at time of application submission)

Official Use Only:

For the Planning Board, this application has been received by the Planning Division of the Department of Planning, Housing & Community Development on the date specified below:

Review date: ________________ All materials submitted: Yes  No

Signature: __________________ Fee: ________________
APPLICATION FOR WAIVER FROM SITE PLAN REVIEW REQUIREMENTS

In certain instances, after consulting with the City Planner, the applicant may submit, in writing, a request for waiver for any of the submittal or technical requirements of Section 5430 and 5440 where the project involves relatively simple development plans. The Planning Board will take a separate vote on written waiver requests by the applicant. Each request for waiver must be submitted individually to be considered by the Board. Please provide one (1) original and fifteen (15) copies of the request.

Any granted waivers must be disclosed on the final submitted and approved site plan.

• Approvals should be obtained by the New Bedford Conservation Commission before applying for relief from the Zoning Board of Appeals
2200. - USE REGULATIONS.

2210. General. No structure shall be erected or used or land used except as set forth in Section 2230, "Table of Use Regulations", unless otherwise provided by this Ordinance or by statute. Uses not expressly provided for herein are prohibited. Not more than one principal structure shall be placed on a lot, except in accordance with Section 2330.

Symbols employed below shall mean the following:

Y - A permitted use.

N - An excluded or prohibited use.

BA - A use authorized under special permit from the Board of Appeals as provided under Section 5300.

CC - A use authorized under special permit from the City Council as provided under Section 5300.

PB - A use authorized under special permit from the Planning Board as provided under Section 5300.

2220. Applicability. When an activity might be classified under more than one of the following uses, the more specific classification shall govern; if equally specific, the more restrictive shall govern.

2230. Table of Use Regulations. See Appendix A;

5300. • SPECIAL PERMITS.

5310. Special Permit Granting Authority. The Zoning Board of Appeals, the Planning Board or the City Council shall act as the Special Permit Granting Authority under this Chapter as specifically designated in a particular Section or in accordance with the Specific Designations in the Table of Principal Use Regulations under Appendix A of this Chapter.

(Ord. of 12-23-03, § 1; Ord. of 12-8-05, § 1)

5320. Criteria. Special permits shall be granted by the special permit granting authority, unless otherwise specified herein, only upon its written determination that the benefit to the City and the neighborhood outweigh the adverse effects of the proposed use, taking into account the characteristics of the site and of the proposal in relation to that site. In addition to any specific factors that may be set forth in this Ordinance, the determination shall include consideration of each of the following:

5321. Social, economic, or community needs which are served by the proposal;
5322. Traffic flow and safety, including parking and loading;
5323. Adequacy of utilities and other public services;
5324. Neighborhood character and social structures;
5325. Impacts on the natural environment; and
5326. Potential fiscal impact, including impact on City services, tax base, and employment.

(Ord. of 12-23-03, § 1)

5330. Procedures. Applications for special permits shall be filed in accordance with the rules and regulations of the various special permit granting authorities, as may be applicable.

(Ord. of 12-23-03, § 1)

5340. Plans. An applicant for a special permit shall submit a plan in substantial conformance with the requirements of Section 5400, herein.

(Ord. of 12-23-03, § 1)

5350. Development Impact Statement (DIS). At the discretion of the special permit granting authority, the submittal of a development impact statement (DIS) may be required. The DIS shall be prepared by an interdisciplinary team including a Registered Landscape Architect or Architect, a Registered Professional or Civil Engineer, and a Registered Surveyor.

5351. Physical Environment.

(a)
Describe the general physical conditions of the site, including amounts and varieties of vegetation, general topography, unusual geologic, archeological, scenic and historical features or structures, location of significant viewpoints, stone walls, trees over sixteen (16) inches in diameter, trails and open space links, and indigenous wildlife.

(b) Describe how the project will affect these conditions, providing a complete physical description of the project and its relationship to the immediate surrounding area.

5352. Surface Water and Subsurface Conditions.

(a) Describe location, extent, and type of existing water and wetlands, including existing surface drainage characteristics, both within and adjacent to the site.

(b) Describe any proposed alterations of shore lines, marshes, or seasonal wet areas.

(c) Describe any limitations imposed on the project by the site's soil and water conditions.

(d) Describe the impact upon ground and surface water quality and recharge, including estimated phosphate and nitrate loading on groundwater and surface water from septic tanks, lawn fertilizer, and other activities within the site.

Project the number of motor vehicles to enter depart the site per average day and peak hour. Also state the number of motor vehicles to use streets adjacent to the site per average day and peak hour. Such data shall be sufficient to enable the special permit granting authority to evaluate (i) existing traffic on streets adjacent to or approaching the site, (ii) traffic generated or resulting from the site, and (iii) the impact of such additional traffic on all ways within and providing access to the site. Actual study results, a description of the study methodology, and the name, address, and telephone number of the person responsible for implementing the study, shall be attached to the DIS.

(a) Water Distribution: Discuss the types of wells or water system proposed for the site, means of providing water for firefighting, and any problems unique to the site.

(b) Sewage Disposal: Discuss the type of on-site or sewer system to be used, suitability of soils, procedures and results of percolation tests, and evaluate impact of disposal methods on surface and groundwater.

(c) Refuse Disposal: Discuss the location and type of facilities, the impact on existing City refuse disposal capacity, hazardous materials requiring special precautions.

(d) Fire Protection: Discuss the type, location, and capacity of fuel storage facilities or other flammables, distance to fire station, and adequacy of existing firefighting equipment to confront potential fires on the proposed site.

(e)
Recreation: Discuss the distance to and type of public facilities to be used by residents of the proposed site, and the type of private recreation facilities to be provided on the site.

(f) Schools: Project the increase to the student population for nursery, elementary, junior high school, and high school levels, also indicating present enrollment in the nearest public schools serving these categories of students.

5355. Phasing. Where development of the site will be phased over more than one year, indicate the following:

(a) Describe the methods to be used during construction to control erosion and sedimentation through use of sediment basins, mulching, matting, temporary vegetation, or covering of soil stockpiles. Describe the approximate size and location of portion of the parcel to be cleared at any given time and length of time of exposure.

(b) Describe the phased construction, if any, of any required public improvements, and how such improvements are to be integrated into site development.

(Ord. of 12-23-03, § 1)

5360. Conditions. Special permits may be granted with such reasonable conditions, safeguards, or limitations on time or use, including performance guarantees, as the special permit granting authority may deem necessary to serve the purposes of this Ordinance.

(Ord. of 12-23-03, § 1)

5370. Lapse. Special permits shall lapse if a substantial use thereof or construction thereunder has not begun, except for good cause, within twelve (12) months following the filing of the special permit approval (plus such time required to pursue or await the determination of an appeal referred to in M.G.L.A. c. 40A, § 17, from the grant thereof) with the City Clerk.

(Ord. of 12-23-03, § 1)

5380. Regulations. The special permit granting authority may adopt rules and regulations for the administration of this Section.

(Ord. of 12-23-03, § 1)

5390. Fees. The special permit granting authority may adopt reasonable administrative fees and technical review fees for applications for special permits.

(Ord. of 12-23-03, § 1)

5400. - SITE PLAN REVIEW.

5410. Purpose. The purpose of this Section is to provide for individual detailed review of development proposals which have an impact on the natural or built environment of the City in order to promote the health, safety and general welfare of the community; to ensure adequate parking, safe and accessible pedestrian and vehicular circulation; and to minimize traffic impact on City streets.

(Ord. of 12-23-03, § 1)

5420. Applicability. The following types of activities and uses require site plan review by the Planning Board:

5421. Any new industrial or commercial construction or expansion over two thousand (2,000) gross square feet or any new industrial or commercial construction or expansion requiring more than five (5) additional parking spaces;

5422. New multiple-family residential construction of three (3) or more units or expansion of existing multifamily residential structures resulting in the creation of one or more additional units.

5423. Any new construction or expansion of existing construction where a drive-thru window for any service including self-service is proposed; and any expansion of a structure presently containing a drive-thru; or any facility currently containing a drive-thru, at which the owner or operator of the drive-thru is altered or changed; or at which the drive-thru is closed for a period of 10 days or more and to be reopened.

5424. Any residential subdivision which is submitted under the subdivision control process;

5425. New industrial or commercial construction or additions less than two thousand (2,000) square feet if requiring a new curb cut or driveway or if substantially affecting existing internal circulation.

5426. Driveways in residential areas which require more than one new curb cut.

5427. Commercial or Industrial ground signs.

(Ord. of 12-23-03, § 1; Ord. of 12-31-08, § 1)

5430. Procedures. Applicants for site plan approval shall submit seventeen (17) copies of the site plan to the Planning Board for distribution to City departments and commissions for their review. The Planning Board shall review and act upon the site plan, with such conditions as may be deemed appropriate and notify the applicant of its decision. In the event two (2) meetings have lapsed after the application for site plan approval is filed, without the Planning Board taking action on said site plan said Applicant may file a statement with the Board that the Board has received complete information in accordance with this Ordinance and has had adequate time to consider the Site Plan. Upon receiving said statement, the Planning Board shall act on said Site Plan at its next meeting, if said Board determines that the Board has, in fact, received complete information in accordance with this Ordinance. The decision of the Planning Board
shall be a vote of a majority of the members of the Planning Board and shall be in writing. No building permit, for activities requiring site plan approval, shall be issued by the Inspector of Buildings without the written approval of the site plan by the Planning Board.

5431. Application for Building Permit. An application for a building permit to perform work as set forth in Section 5410 available as of right shall be accompanied by an approved site plan.

5432. Application for Special Permit or Variance. An application for a special permit or a variance to perform work as set forth in Section 5420 shall be accompanied by an approved site plan; in the alternative, any special permit or variance granted for work set forth in Section 5420 shall contain the following condition and cause the same to be written on such special permit or variance:

The work described herein requires the approval of a site plan by the New Bedford Planning Board pursuant to Section 5400 of the Zoning Ordinance. Any conditions imposed in such site plan approval shall also be conditions of this special permit/variance.

5433. Where the Planning Board approves a site plan "with conditions", and said approved site plan accompanies a special permit or variance application to the Board of Appeals, the conditions imposed by the Planning Board shall be incorporated into the issuance, if any, of a special permit or variance by the Board of Appeals.

5434. Where the Planning Board serves as the special permit granting authority for proposed work, it shall consolidate its site plan review and special permit procedures.

5435. The applicant may request, and the Planning Board may grant by majority vote of its membership, an extension of the time limits set forth herein.

5436. No deviation from an approved site plan shall be permitted without modification thereof.

5437. Site plan approval does not constitute a certification that the proposed plan conforms to applicable zoning regulations, wetland regulations and/or any other City, state or federal requirements that must be obtained prior to implementation the of elements of the site plan.

(Ord. of 12-23-03, § 1)

5440. Preparation of Plans. Applicants are invited to submit a pre-application sketch of the proposed project to the Planning Department and are encouraged to schedule a pre-submission meeting with the Planning Department. Site Plans shall be submitted on 24-Inch by 36-Inch sheets. Plans shall be prepared by a Registered Professional Engineer, Registered Land Surveyor, Architect, or Landscape Architect, as appropriate. Dimensions and scales shall be adequate to determine that all requirements are met and to make a complete analysis and evaluation of the proposal. All plans shall have a minimum scale of 1" = 40'.

(Ord. of 12-23-03, § 1)
5450. Contents of Plan. The contents of the site plan are as follows:

5451. Plan sheets prepared at a scale of one inch equals forty (40) feet or such other scale as may be approved by the Planning Board. The plans are as follows:

5451.a. Site layout, which shall contain the boundaries of the lot(s) in the proposed development, proposed structures, general circulation plan for vehicles and pedestrians, drive-thru windows, curb cut locations, parking, fences, walls, walks, outdoor lighting including proposed fixtures, loading facilities, solid waste storage locations, and areas for snow storage after plowing. The first sheet in this plan shall be a locus plan, at a scale of one inch equals one hundred (100) feet, showing the entire project and its relation to existing areas, buildings and roads for a distance of one thousand (1,000) feet from the project boundaries or such other distance as may be approved or required by the Planning Board.

5451.b. Topography and drainage plan, which shall contain the existing and proposed final topography at two-foot intervals and plans for handling stormwater runoff drainage.

5451.c. Utility plan, which shall include all facilities for refuse and sewerage disposal or storage of all these wastes, the location of all hydrants, fire alarm and firefighting facilities on and adjacent to the site, all proposed recreational facilities and open space areas, and all wetlands including floodplain areas.

5451.d. Architectural plan, which shall include the ground floor plan, proposed exterior building materials, treatments and colors and architectural elevations of all proposed buildings and a color rendering where necessary to determine the proposal's affect on the visual environment.

5451.e. Landscaping plan, showing the limits of work, existing tree lines as well as those tree lines to remain, and all proposed landscape features and improvements including screening, planting areas with size and type of stock for each shrub or tree, and including proposed erosion control measures during construction.

5451.f. Lighting plan showing the location and orientation of all existing and proposed exterior lighting, including building and ground lighting. The plan shall note the height, initial foot-candle readings on the ground and the types of fixtures to be used.

5452. The site plan shall be accompanied by a written statement indicating the estimated time required to complete the proposed project and any and all phases thereof. There shall be submitted a written estimate, showing in detail the costs of all site improvements planned.

5453. A written summary of the contemplated project shall be submitted with the site plan indicating, where appropriate, the number of dwelling units to be built and the acreage in residential use, the evidence of compliance with parking and off-street loading requirements, the forms of ownership
contemplated for the property and a summary of the provisions of any ownership or maintenance thereof, identification of all land that will become common or public land, and any other evidence necessary to indicate compliance with this Ordinance.

5454. The site plan shall be accompanied by drainage calculations by a registered professional engineer as well as wetland delineations, if applicable. Storm drainage design must conform to City of New Bedford subdivision regulations.

5455. The Planning Board may require a DIS as set forth in Section 5300, above.

5456. Certification that the proposal is in compliance with the provisions, if applicable, of the Americans with Disabilities Act and the Massachusetts Architectural Barriers Board.

(Ord. of 12-23-03, § 1)

5460. Waivers. The Planning Board may, upon written request of the applicant, waive any of the submittal or technical requirements of Section 5430 and 5440 where the project involves relatively simple development plans.

(Ord. of 12-23-03, § 1)

5470. Approval. Site Plan approval shall be granted upon determination by the Planning Board that the plan meets the following objectives: The Planning Board may impose reasonable conditions at the expense of the applicant, including performance guarantees, to promote these objectives. Any new building construction or other site alteration shall provide adequate access to each structure for fire and service equipment and adequate provision for utilities and stormwater drainage consistent with the functional requirements of the Planning Board’s Subdivision Rules and Regulations. New building construction or other site alteration shall be designed in the Site Plan, after considering the qualities of the specific location, the proposed land use, the design of building form, grading, egress points, and other aspects of the development, so as to:

5471. Minimize: the volume of cut and fill, the number of removed trees six-inch caliper or larger, the length of removed stone walls, the area of wetland vegetation displaced, the extent of stormwater flow increase from the site, soil erosion, and the threat of air and water pollution;

5472. Maximize: pedestrian and vehicular safety to and from the site;

5473. Minimize obstruction of scenic views from publicly accessible locations;

5474. Minimize visual intrusion by controlling the layout and visibility of parking, storage, or other outdoor service areas viewed from public ways or premises which are residentially used or zoned;

5475. Minimize glare from vehicle headlights and lighting fixtures;
5476. Minimize unreasonable departure from the character, materials, and scale of buildings in the vicinity, as viewed from public ways and places.

5477. Minimize contamination of groundwater from on-site wastewater disposal systems or operations on the premises involving the use, storage, handling, or containment of solid and liquid wastes and hazardous substances;

5478. Ensure compliance with the provisions of this Zoning Ordinance.

5479. Minimize damage to existing adjacent public ways.

5479A. Promote orderly and reasonable internal circulation within the site so as to protect public safety and not unreasonably interfere with access to a public way or circulation of traffic on a public way in general.

(Ord. of 12-23-03, § 1)

5480. Lapse. Site plan approval shall lapse after one year from the final approval if a substantial use in accordance with such approved plans has not commenced except for good cause. Such approval may, for good cause, be extended in writing by the Planning Board upon the written request of the applicant, within this one-year period.

(Ord. of 12-23-03, § 1)

5490. Regulations. The Planning Board may adopt and from time to time amend reasonable regulations for the administration of these Site Plan guidelines.

(Ord. of 12-23-03, § 1)

5490A. Fee. The Planning Board may, from time to time, adopt reasonable administrative fees and technical review fees for site plan review.

(Ord. of 12-23-03, § 1)

5490B. Appeal. Any person aggrieved by a decision of the Planning Board rendered pursuant to Section 5400 may appeal such decision to the Zoning Board of Appeals as provided in M.G.L.A. c. 40A, § 8.

(Ord. of 12-23-03, § 1)
4400. - FLOOD HAZARD OVERLAY DISTRICT (FHOD).

4410. Statement of Purpose. The purposes of the Floodplain District are to:

1. Ensure public safety through reducing the threats to life and personal injury;
2. Eliminate new hazards to emergency response officials;
3. Prevent the occurrence of public emergencies resulting from water quality, contamination, and pollution due to flooding;
4. Avoid the loss of utility services which if damaged by flooding would disrupt or shut down the utility network and impact regions of the community beyond the site of flooding;
5. Eliminate costs associated with the response and cleanup of flooding conditions;
6. Reduce damage to public and private property resulting from flooding waters.

(Ord. of 9-17-09, § 1)

4420. Definitions.

Area of special flood hazard is the land in the floodplain within a community subject to a one percent or greater chance of flooding in any given year. The area may be designated as Zone A, AO, AH, AI-30, AE, A99, VI-30, VE, or V.

Base flood means the flood having a one percent chance of being equaled or exceeded in any given year.

Coastal high hazard area means an area of special flood hazard extending from offshore to the inland limit of a primary frontal dune along an open coast and any other area subject to high velocity wave action from storms or seismic sources. The area is designated on a FIRM as Zone V, VI-30, VE.

Development means any man-made change to improved or unimproved real estate, including but not limited to building or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations.

District means Floodplain District.

Federal Emergency Management Agency (FEMA) administers the National Flood Insurance Program. FEMA provides a Nationwide flood hazard area mapping study program for communities as well as regulatory standards for development in the flood hazard areas.

Flood Insurance Rate Map (FIRM) means an official map of a community on which FEMA has delineated both the areas of special flood hazard and the risk premium zones applicable to the community.

Flood Insurance study means an examination, evaluation, and determination of flood hazards, and, if appropriate, corresponding water surface elevations, or an examination, evaluation and determination of flood-related erosion hazards.

Floodway means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation.

Lowest floor means the lowest floor of the lowest enclosed area (including basement or cellar). An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor, provided that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of NFIP Regulations 60.3.
Manufactured home means a structure, transportable in one or more sections, which is built on a permanent chassis and is designated for use with or without a permanent foundation when connected to the required utilities. For floodplain management purposes the term "manufactured home" also includes park trailers, travel trailers, and other similar vehicles placed on a site for greater than one hundred eighty (180) consecutive days. For insurance purposes, the term "manufactured home" does not include park trailers, travel trailers, and other similar vehicles.

Manufactured home park or subdivision means a parcel (or contiguous parcels) of land divided into two (2) or more manufactured home lots for rent or sale.

New construction means, for floodplain management purposes, structures for which the "start of construction" commenced on or after the effective date of a floodplain management regulation adopted by a community. For the purpose of determining insurance rates, new construction means structures for which the "start of construction" commenced on or after the effective date of an initial FIRM or after December 31, 1974, whichever is later.

One-hundred-year flood - see Base flood.

Regulatory Floodway - see Floodway.

Special flood hazard area means an area having special flood and/or flood-related erosion hazards, and shown on an FHBM or FIRM as Zone A, AO, AI-30, AE, A99, AH, V, VI-30, VE.

Structure means, for floodplain management purposes, a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home. Structure, for insurance coverage purposes, means a walled and roofed building other than a gas or liquid storage tank that is principally above ground and affixed to a permanent site, as well as a manufactured home on foundation. For the latter purpose, the term includes a building while in the course of construction, alteration, or repair, but does not include building materials or supplies intended for use in such construction, alteration, or repair, unless such materials or supplies are within an enclosed building on the premises.

Substantial damage means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before-damaged condition would equal or exceed fifty (50) percent of the market value of the structure before the damage occurred.

Substantial improvement means any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds fifty (50) percent of the market value of the structure either (a) before the improvement or repair is started, or (b) if the structure has been damaged and is being restored, before the damage occurred. For the purposes of this definition, "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure.

Zone A means the one-hundred-year floodplain area where the base flood elevation (BFE) has not been determined. To determine the BFE, use the best available Federal, State, local, or other data.

Zone A1-30 and Zone AE (for new and revised maps) means the one-hundred-year floodplain where the base flood elevation has been determined.

Zone AH and Zone AO means the one-hundred-year floodplain with flood depths of one to three (3) feet, where a clearly defined channel does not exist, where the path of flooding is unpredictable, and where the velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

Zone A99 means areas to be protected from the one-hundred-year flood by federal flood protection system under construction. Base flood elevations have not been determined.
Zones B, C, and X are areas identified in the community flood insurance study as areas of moderate or minimal flood hazard. Zone X replaces Zones B and C on new and revised maps.

Zone V means a special flood hazard area along a coast subject to inundation by the one-hundred-year flood with the additional hazards associated with storm waves. Base flood elevations have not been determined.

Zone V1-30 and Zone VE (for new and revised maps) means a special flood hazard area along a coast subject to inundation by the one-hundred-year flood with additional hazards due to velocity (wave action). Base flood elevations have been determined.

(Ord. of 9-17-09, § 1)

4430. Floodplain District Boundaries and Base Flood Elevation Data. The Floodplain District is herein established as an overlay district. The district includes all special flood hazard areas within the City of New Bedford designated as Zone A, AE, or VE on the Bristol County Flood Insurance Rate Map (FIRM) issued by the Federal Emergency Management Agency (FEMA) for the administration of the National Flood Insurance Program. The map panels of the Bristol County FIRM that are wholly or partially within the City of New Bedford are panel numbers 25005C0377F, 25005C0378F, 25005C0379F, 25005C0381F, 25005C0386F, 25005C0387F, 25005C0388F, 25005C0389F, 25005C0477F, and 25005C0484F dated July 7, 2009; and panel numbers 25005C0383G, 25005C0391G, 25005C0393G, 25005C0394G, 25005C0481G, 25005C0482G and 25005C0483G dated July 16, 2014. The exact boundaries of the District may be defined by the one-hundred-year base flood elevations shown on the FIRM and further defined by the Bristol County Flood Insurance Study (FIS) report dated July 16, 2014. The FIRM and FIS report are incorporated herein by reference and are on file with the Town Clerk, Planning Board, Building Official and Conservation Commission.

(Ord. of 9-17-09, § 1; Ord. of 6-16-14, § 1, eff. 7-16-2014)

4440. Base Flood Elevation and Floodway Data:

1. Floodway Data. In Zones A, and AE, along watercourses that have not had a regulatory floodway designated, the best available federal, state, local, or other floodway data shall be used to prohibit encroachments in floodways which would result in any increase in flood levels within the community during the occurrence of the base flood discharge.

2. Base Flood Elevation Data. Base flood elevation data is required for subdivision proposals or other developments greater than fifty (50) lots or five (5) acres, whichever is the lesser, within unnumbered A zones.

(Ord. of 9-17-09, § 1)

4450. Notification of Watercourse Alteration. In a riverine situation, the City Planner shall notify the following of any alteration or relocation of a watercourse:

- Adjacent Communities
- NFIP State Coordinator
  Massachusetts Department of Conservation and Recreation
  251 Causeway Street, Suite 600-700
  Boston, MA 02114-2104
- NFIP Program Specialist
  Federal Emergency Management Agency, Region I
4460. Use Regulations.

1. Reference to Existing Regulations (b, c, d, e communities). The Floodplain District is established as an overlay district to all other districts. All development in the district, including structural and non-structural activities, whether permitted by right or by special permit must be in compliance with Chapter 131, Section 40 of the Massachusetts General Laws and with the following:
   • Section of the Massachusetts State Building Code which addresses floodplain and coastal high hazard areas (currently 780 CMR);
   • Wetlands Protection Regulations, Department of Environmental Protection (DEP) (currently 310 CMR 10.00);
   • Inland Wetlands Restriction, DEP (currently 310 CMR 13.00);
   • Coastal Wetlands Restriction, DEP (currently 310 CMR 12.00);
   • Minimum Requirements for the Subsurface Disposal of Sanitary Sewage, DEP (currently 310 CMR 15. Title 5);

   Any variances from the provisions and requirements of the above referenced state regulations may only be granted in accordance with the required variance procedures of these state regulations.

2. Other Use Regulations.
   A. In Zones AE, along watercourses that have a regulatory floodway within the City of New Bedford, as designated on the Bristol County FIRM, encroachments are prohibited in the regulatory floodway which would result in any increase in flood levels within the community during the occurrence of the base flood discharge.
   B. Man-made alteration of sand dunes within Zones VE which would increase potential flood damage are prohibited.
   C. All new construction within Zones VE must be located landward of the reach of mean high tide.
   D. All subdivision proposals must be designed to assure that:
      a) such proposals minimize flood damage;
      b) all public utilities and facilities are located and constructed to minimize or eliminate flood damage; and
      c) adequate drainage is provided to reduce exposure to flood hazards.
   E. Existing contour intervals of site and elevations of existing structures must be included on plan proposal.
   F. There shall be established a "routing procedure" which will circulate or transmit one copy of the development plan to the Conservation Commission, Planning Board, Board of Health, the City Engineer and the Building Commissioner for comments which will be considered by the appropriate permitting board prior to issuing applicable permits.

(Ord. of 9-17-09, § 1; Ord. of 5-16-14, § 2, eff. 7-16, 2014)
Permitted Uses: The following uses of low flood damage potential and causing no obstructions to flood flows are encouraged provided they are permitted in the underlying district and they do not require structures, fill, or storage of materials or equipment:

1. Agricultural uses such as farming, grazing, truck farming, horticulture, etc.
2. Forestry and nursery uses.
3. "Outdoor recreational uses, including fishing, boating, play areas, etc.
5. Wildlife management areas, foot, bicycle, and/or horse paths.
6. Temporary non-residential structures used in connection with fishing, growing, harvesting, storage, or sale of crops raised on the premises.
7. Buildings lawfully existing prior to the adoption of these provisions.

PERMIT NO. 3-19-37

BETWEEN __________________________ AND __________________________

PLOT __________________________ LOT 99 DISTRICT 1A

PLANS FILED YES NO

II. TYPE AND COST OF BUILDING — all applicants complete parts A through D — PRINT

A. TYPE OF IMPROVEMENT

1. ☐ New Building
2. ☐ Addition (if residential, enter number of new housing units added, if any, in Part D, 14)
3. ☐ Alteration (if residential, enter number of new housing units added, if any, in Part D, 14)
4. ☐ Repair, replacement
5. ☐ Demolition (if multifamily residential, enter number of units in building in Part D, 14; if nonresidential, indicate most recent year checking D-18 - D-32)
6. ☐ Moving (relocation)
7. ☐ Foundation only

B. OWNERSHIP

☐ Public (Federal, State, or local government)
☐ Private (individual, corporation, nonprofit institution, etc.)

C. COST

10. Cost of construction $335,000

D. PROPOSED USE — For demolition most recent use

Residential

☐ One family
☐ Two or more family — Enter number of units

Nonresidential

☐ Amusement, recreational
☐ Church, other religious
☐ Industrial
☐ Parking garage
☐ Service station, repair garage
☐ Hospital, institutional
☐ Office, bank, professional
☐ Public utility
☐ School, library, other educational
☐ Stores, mercantile
☐ Tank, towers
☐ Funeral homes
☐ Food establishments
☐ Other — Specify

D.2. Does this building contain asbestos?

☐ YES ☐ NO

If yes complete the following:

Name & Address of Asbestos Removal Firm:

Submit copy of notification sent to DEOL and the State Dept. of Labor & Industries and results of air sample analysis after asbestos removal is completed

D.3. Non-residential — Describe in detail proposed use of buildings, e.g., food processing plant, machine shop, laundry building at hospital, elementary school, secondary school, college, parochial school, parking garage for department store, rental office building, office building at industrial plant. If use of existing building is being changed, enter proposed use.

III. SELECTED CHARACTERISTICS OF BUILDING —

For new buildings complete Part E through L. For demolition, complete only "parts G/ H/ & L".

For all others, (additions, alterations, repair, moving, foundation), complete E through L.

E. PRINCIPAL TYPE OF FRAME

☐ Masonry (wall bearing)
☐ Wood frame
☐ Structural steel
☐ Reinforced concrete
☐ Other — Specify

F. PRINCIPAL TYPE OF HEATING FUEL

☐ Gas
☐ Oil
☐ Electrically
☐ Other — Specify

G. TYPE OF SEWAGE DISPOSAL

☐ Public or private company
☐ Private (septic tank, etc.)

H. TYPE OF WATER SUPPLY

☐ Public or private company
☐ Private (well, cistern)

I. TYPE OF MECHANICAL

Is there a fire sprinkler system?

☐ YES ☐ NO

Will there be central air conditioning?

☐ YES ☐ NO

Will there be an elevator?

☐ YES ☐ NO

Omission of reference to any provision shall not nullify any requirement of this code nor exempt any structure from such requirement.

The applicants understands and warrants that they will comply with all pertinent federal and state statutes, local ordinances and all federal, state, and local regulations, including those of the Architectural Barriers board, Department of Environmental Protection Agency and may be forwarded for review to all pertinent local city agencies which may express specific concerns. It is understood that the issuance of a permit shall not serve as an acceptance or acknowledgment of compliance nor exempt any structure from such requirement. The permit shall be a license to proceed with the work and shall not be construed as authority to violate, cancel, or set aside any of the provisions of the State Building Code or local code of ordinances, except as specifically stipulated by modification or legally granted variation in accordance with Section 122.0 of State Building Code or local code of ordinances.

I have read the above and sign under pain and penalty of perjury as to the truth of all of the information and statements contained in sections I through IV of this application.

Home Improvement Contractor Law  
Supplement to Permit Application

The Office of Consumer Affairs and Business Regulation ("OCABR") regulates the registration of contractors and subcontractors performing improvements or renovations on detached one to four family homes. Prior to performing work on such homes, a contractor must be registered as a Home Improvement Contractor ("HIC").

M.G.L. Chapter 142A requires that the "reconstruction, alteration, renovation, repair, modernization, conversion, improvement, removal, demolition, or construction of an addition to any pre-existing owner-occupied building containing at least one but not more than four dwelling units...or to structures which are adjacent to such residence or building" be done by registered contractors.

Note: If the homeowner contracted with a corporation or LLC, that entity must be registered.

Type of Work: _______________________________  Est. Cost: _______________________________

Address of Work: _______________________________

Date of Permit Application: ___________

I hereby certify that:

Registration is not required for the following reason(s):

__ Work excluded by law (explain)
__ Job under $1,000.00
__ Building not owner-occupied
__ Owner obtaining own permit (explain)
__ Other (specify) COMMERCIAL

OWNERS OBTAINING THEIR OWN PERMIT OR ENTERING INTO CONTRACTS WITH UNREGISTERED CONTRACTORS OR SUBCONTRACTORS FOR APPLICABLE HOME IMPROVEMENT WORK ARE NOT ELIGIBLE FOR AND DO NOT HAVE ACCESS TO THE ARBITRATION PROGRAM OR GUARANTY FUND UNDER M.G.L. Chapter 142A.

Signed under the penalties of perjury:

I hereby apply for a permit as the agent of the owner:

_________________________________________  ________________
Date  Contractor Name  HIC Registration No.
