### PUBLIC HEARINGS

**ITEM 1 - Case 27-17** – Request by applicant for modification of site plan approval of Case 38-14 for new construction of a Multi-Unit Residential Building [6-Two (2) Bedroom Units] at 475 Union Street (Map Plot 51, Lot 269) located in the Mixed-Use Business (MUB) and Residence B (RB) zoning districts. Applicant: Preferred Realty Services, LLC, 1234 Market Street, P.O. Box 40714, Philadelphia, PA 19107.

Owner/developer Edward Redman (Preferred Realty Services) explained he had received a variance for lot width and area, and at that time had submitted a conceptual set of plans to the Planning Board for review. After suggestions were made by his architect, modifications were made to the elevations. He explained the modification of windows and shutters. He noted the existence of an egress balcony on the east side and a set of stairs on the south elevation. After code compliance review, modifications were again made. The egress balcony was moved from east to the west side of the building to utilize both interior fire rated staircases. The rear open switchback staircase on the north elevation has been eliminated.

Modifying the egress to the opposite side of the building allowed for significant improvement in fenestration,

and overall unit layout. He noted the addition of a residential front porch to the south facing Union Street elevation, which is in harmony with the other properties in the surrounding area.

Mr. Redman noted that these changes have not resulted in any zoning violation.

Board member Glassman confirmed that the square footage and building footprint remains the same.

Board member Duff confirmed that none of the exterior materials were being changed.

In response to Board member Cruz, Mr. Redman confirmed that lighting on the balcony doors will be transferred to the west side elevation. He noted that ground lighting in the parking area and walkways had been approved.

A motion was made (KD) and seconded (AG) to open the public hearing.  
Motion passed unopposed.

In response to Chairperson Dawicki's invitation to speak or be recorded in favor, or to speak or be recorded in opposition, Mr. Redman asked to be recorded in favor of the project.

A motion was made (KD) and seconded (AG) to close the public hearing.  
Motion passed unopposed.

Ms. Clarke suggested the motion reference that all previous decisions and conditions, both zoning and planning board, remain in full force and effect.

After brief board discussion to include the addition of the lighting to the west side balcony, the traffic flow of the egress balcony, and correction of the zoning district noted on the front sheet, a motion was made (KD) and seconded (AG) to approve the request by applicant for modification of site plan approval of Case 38-14 for new construction of a Multi-Unit Residential Building [6-Two (2) Bedroom Units] at 475 Union Street (Map Plot 51, Lot 269) located in the Mixed-Use Business (MUB) and Residence B (RB) zoning districts, with the following conditions:

- Noted, all previous conditions resulting the approval of the Zoning and Planning Boards remain in force;
- That the applicant agree to update the cover sheet to reflect both zoning districts where the project is located;
- In compliance with the staff recommendation, that the applicant provide exterior/egress lighting along balcony to the west side of the proposed building;
- That the applicant provide a written schedule of the project through completion;
- And that the applicant confer with the building commissioner regarding the need for exit sign lights above the egress doors on the exterior balcony.

Motion passed unopposed.
