its original dimensions, as defined in the initial special permit application, and that the need for the special permit still exists and there has been no change in the use or circumstances for which the special permit was originally granted.

2347. Special permits for an accessory dwelling unit may be issued, after a public hearing, upon a finding that the construction and occupancy of the apartment will not be detrimental to the neighborhood in which the lot is located and after consideration of the factors specified in Section 5300 herein.

(Ord. of 12-23-03, § 1)

2400. - NONCONFORMING USES AND STRUCTURES.

2410. **Applicability.** This Zoning Ordinance shall not apply to structures or uses lawfully in existence or lawfully begun, or to a building or special permit issued before the first publication of notice of the public hearing required by M.G.L.A. c. 40A, § 5, at which this Zoning Ordinance, or any relevant part thereof, was adopted. Such prior, lawfully existing nonconforming uses and structures may continue, provided that no modification of the use or structure is accomplished, unless authorized hereunder.

(Ord. of 12-23-03, § 1)

2420. **Nonconforming Uses.** The Board of Appeals may award a special permit to change a nonconforming use in accordance with this Section only if it determines that such change or extension shall not be substantially more detrimental than the existing nonconforming use to the neighborhood. The following types of changes to nonconforming uses may be considered by the Board of Appeals:

2421. Change or substantial extension of the use;

2422. Change from one nonconforming use to another, less detrimental, nonconforming use.

(Ord. of 12-23-03, § 1)

2430. **Nonconforming Structures, Other Than Single- and Two-Family Structures.** The Board of Appeals may award a special permit to reconstruct, extend, alter, or change a nonconforming structure in accordance with this Section only if it determines that such reconstruction, extension, alteration, or change shall not be substantially more detrimental than the existing nonconforming structure to the neighborhood. The following types of changes to nonconforming structures may be considered by the Board of Appeals:

2431. Reconstructed, extended or structurally changed;

2432. Altered to provide for a substantially different purpose or for the same purpose in a substantially different manner or to a substantially greater extent;

The reconstruction, extension or structural change of such nonconforming structures so as to increase an existing nonconformity, or create a new nonconformity, including the extension of an exterior wall at or along the same nonconforming distance within a required yard, shall require the issuance of a variance from the Board of Appeals.

(Ord. of 12-23-03, § 1)

2755. Side Yards. There shall be a side yard on every lot and it shall be at least ten (10) feet on one side and twelve (12) feet on the other side. The side yard shall be unobstructed from the line of the street to the rear lot line except that open porches, decks, steps, patios and pools (including any projections therefrom), which are located behind the dwelling within the rear yard, may extend to six (6) feet of a side lot line, driveways may extend to four (4) feet of a side lot line and storage sheds, which are located behind the dwelling within the rear yard may extend to eighteen (18) inches of a side yard unless a fence is erected on the property along the side yard line. In such case the storage shed may extend eighteen (18) inches of the fence or fence post whichever is closest. For all driveways, including those regulated under Section 2756, the area between a driveway and the side lot line shall be of a different material than the material used for the driveway and shall not be covered with an impervious surface or crushed stone.

Notwithstanding any provision to the contrary, any driveway existing prior to April 15, 2009, that is made of a material that creates an impervious surface, may be permitted for repair, resurfacing or reconstruction with substantially the same type of material provided that the dimensions of the driveway are not increased and the location of the driveway layout is not altered.

2756. Special Driveway Side Yard Requirements. For existing dwellings on lot sizes of less than five thousand (5,000) square feet, driveways shall not extend to the side lot line closer than ten (10) percent of the distance between the side lot line and the principle dwelling. For any driveway in excess of thirteen (13) feet in width, the provisions of Section 2755 regulating driveway setbacks shall apply and this section shall not apply.

(Ord. of 12-23-03, § 1; Ord. of 4-15-10, § 1; Ord. of 10-20-11, § 1; Ord. of 1-15-13, §§ 1, 2)

2760. Cornices and Belt Courses.

2761. A cornice shall not project more than one-third (1/3) of the width of a required open space.

(Ord. of 12-23-03, § 1)

2770. Courts.

2772. If any part of a story is used for living or sleeping rooms which are not lighted from the street or the rear yard, such court shall be required starting not more than two (2) rooms or thirty-five (35) feet from the main exterior walls of that story.

2773. An inner court shall be at least one-third (1/3) as wide as it is high, measured from the sills of the lowest windows served by it to the average level of the tops of the enclosing walls, and shall be at least twice as long as its required width or of an equivalent area, but no court shall be less than ten (10) feet in width.
